Re: Notice of File Closure for Small Mining Activities, Barrett Mines, Inc., Beaver Dam Wash Project, S/053/010, Washington County, Utah

Dear Mr. Robison:

On April 15, 1999 the Division performed a site inspection of your Beaver Dam Wash small mining project located in the SE/14 of the NW1/4 of Section 16, T40S, R19W, Washington County, Utah. There has been no change since the last Division inspection on September 15, 1995. A road built illegally through state lands remains with no changes. The lower portion of this road, which is located on BLM managed lands, was reclaimed to the BLM satisfaction. The road, however, has been opened back up again to access the stream in Beaver Dam Wash.

You are hereby released from any further mining or reclamation responsibilities by the Division at this site. If you plan to conduct any new mining activities in this area, you will need to submit the appropriate notice of intention, pay the Division permit fee, and receive written approval(s), prior to commencing any such activities. In a phone call to the School and Institutional Trust Lands Administration (SITLA), they have no further concerns with the road issue and concur with the Division closing the file.

If you have any questions or concerns regarding this action, please contact me at (801) 538-5382.

Sincerely,

A handwritten signature in cursive script that reads "Doug Jensen".

Doug Jensen
Reclamation Specialist
